The Time Is Rye!

Our annual supply of conventinal cereal rye has now arrived in the warehouse.

We take delivery of rye just once a year and there's always a high demand as it's a firm favourite with customers for use as an overwinter green manure cover crop. The seed leaves our warehouse almost as soon as it arrives so we'd advise you to contact us as soon as you can if you'd like some.

Rye is often grown as a companion crop with vetch, since combining an N lifter and a fixer together is the best way of improving soils over winter.
