
Visit us at Groundswell

This year at Groundswell (26-27th June) our Technical Manager, Sam Lane, and Technical Advisor Lizzie Arnold, will be on hand to discuss the demonstration plot of herbal ley, focusing on the many benefits of the ley in terms of building soil fertility. At 4pm on Thursday, Sam will be running a herbal ley workshop, looking at how to sow and grow herbal leys on different soil types, as part of a crop rotation.

You can find us, and our herbal ley, at HL1.
