
Webinar 24th June: Forage Options - Planning for Drought

Join our Technical Manager, Sam Lane, on this free Soil Association webinar.

About the Event

As we come out of one of the driest springs on record, heading into summer, Sam Lane from Cotswold Seeds will be joining us to discuss forage options and do some future planning to make your grazing more resilient to drought. We will also be highlighting the potential of tree fodder and the options for organic farmers in regards to buying in forage and derogations.
