Farm Walk at Honeydale

{video1}

Join FarmED Founder, Ian Wilkinson, on a virtual farm walk. Of course it's not the same as actually visiting us at Honeydale Farm, but while we're unable to welcome you, we hope this serves as a good introduction. This film was shot in winter and hopefully inspires you to come in person, when restrictions are lifted and you can walk, talk and meet at FarmED to learn more about sustainable food and agroecology. In the spring and summer the fields at FarmED are full of life and colour, and the FarmED kitchen will be serving delicious, nutritious and sustainable food to refresh you. We've an exciting schedule of modules and events lined up for later this year, so do keep visiting our events page to check out what's going on.
