Delivery Notice: Play it Safe!

We understand that our Next Day Delivery offer has always been very popular and useful and we are doing our very best to maintain this during these difficult times. However, the combination of Brexit disruption and the ongoing pandemic restrictions are causing some supply and delivery delays. At present we are asking customers to expect their seed within 3-5 working days of ordering, though in many cases it will be quicker. To be on the safe side though, try to order your seed with as much notice as possible. Many thanks for your understanding!
