CHCx3 July Newsletter

This month's newsletter from the Centre for High Carbon Capture Cropping (CHCx3) newsletter is full of news and views, including:

* An editorial from Stuart Knight, NIAB, CHCx3 Knowledge Hub Leader.

* Dr Lydia Smith, Project Lead gives her views on the opportunities and challenges for fibre crops.

* Dr Jason Kam, Scientist at Terravesta looks at unlocking the carbon storage potential of miscanthus and willow.

* Professor Ian A. Graham, Centre for Novel Agricultural Products, University of York explores developing hemp as a multipurpose crop for UK agriculture.

* Meet the CHCx3 Partners: Liz Bowles, Farm Carbon Toolkit and Lead partner for the CHCx3 Soil Carbon Workstream

* In the Field: Miscanthus grower

Plus news from the hub, details of forthcoming events, how to get involved and much more.
