

Case Study: Sainfoin with John Rogers

{video1}

John Rogers has been growing Sainfoin on his farm in Hereford since 2004, and has found after 6 years it is still improving, even after an initial potash deficiency. Here he describes how he has been regularly achieving one cut and two grazings each year, even in dry conditions, and has also been selling it for goat feed; goats which have subsequently gone on to win 'Best in Show' at the Royal Welsh Show.
