

Soil Workshop @ Cotswold Seeds!

A ONE DAY WORKSHOP:
SOIL HEALTH AND FORAGE PLANTS
Wednesday 15th February 10.30 - 3.30
Including lunch and farm walk

"TO BE A SUCCESSFUL FARMER ONE MUST FIRST KNOW THE NATURE OF THE SOIL." - XENOPHON, 300 B.C.

You will learn about:

Soil health:

- what a healthy soil looks like
- what you can do to improve soil health
- how soil biology reduces inputs

Forage plants that work for pollinators and soils:

- Improving diversity on farm
- Supporting pollinators
- Improving water and food quality

AT COTSWOLD SEEDS,
COTSWOLD BUSINESS VILLAGE,
LONDON ROAD,
MORETON IN MARSH, GLOS.
GL56 0JQ

Please book online via Eventbrite using [this link](#)

This event may qualify for up to four hours of informal CPD for RICS members.

Come along to a one day workshop hosted by the Soil Association and Cotswold Seeds, and including lunch and a farm walk. 'Soil Health and Forage Plants' will cover topics such as how biology can reduce the need for inputs, what can be done to improve soil health and what healthy soil looks like. The second section will look at improving diversity, supporting pollinators and improving water and food quality.

The day will include a visit to Honeydale Farm, being developed as a Centre for Farm Diversity. Here you will see the early stages of an eight year crop rotation, mob-grazing, natural flood management works, beehives, a heritage orchard, wildflower margins and more!

The workshop takes place at Cotswold Seeds' headquarters in Moreton-in-Marsh on Wednesday February 10th from 10.30-3.30. Places are limited so will be allocated on a first come-first served basis.

Book here.
