
Case study: Herbal Leys for Foggage with Lyn Cornwallis

{video1}

Mr. Cornwallis, a mixed farmer from Oxfordshire, describes his system for using a Cotswold Seeds Herbal Ley as foggage.

Mr. Cornwallis, was found by the Farm Business Survey to be over 27% better off than other comparable farms and discusses his low input ethos. Mr Cornwallis explains how complex leys keep his costs down, benefit his livestock and ensure he has year-round grazing. As they also comply with his agri-environment scheme, they are an all-round solution on his free-draining soil.
